“ We are so saddened to hear of Mr. Kobata's passing. We did not know him, but he made a difference in my daughter's life because of the scholarship that he founded. She is a current recipient and could not be more appreciative. Our hearts go out to the family and friends of this great man who has no doubt made a difference for countless others as well.

“ Condolences to all the Family & close friends of Kay. My name is Eric Jacobson & from 1960 I lived near Stratford on our family farm. I think I knew the Kobatas most of my life, liked & respect that family. Off & on I worked for Kay & found him to be a very good man, quite humorous at times. I like to think of Kay as a young man in the 60s wearing his aviator sun glasses driving his late model Pontiacs to fast with a big wave as he went by. He always made me feel welcome & I still appreciate that. R.I.P. Kay

“ When Mr. Kabota retired from farming, Chuck Yarbro Auctioneers was honored to sell his surplus equipment at auction. I remember him as a very kind, good natured seller who was very cordial to our crew and me in particular as I had recently been injured and confined to my wheelchair. He was anxious to help me to the car when we left after the auction. We had intended to return and take him to dinner but our auction schedule precluded a lot of those good intentions. I wish we had done so.

“ I was deeply saddened by the news of Kay's passing. I was in Colorado to a wedding and just returned last night. I farmed Kay's farm for over 25 years and in all that time never had a disagreement with him. He was such a gentleman and a wonderful landlord. I respected him more than words can ever express. I want the Kobata family to know that I thought he was a great man and appreciate him so very much. It was great working with you all those years, RIP Kay.
