“ I met Pam 5 years ago when I starting working in home care. From the bottom of my heart I was truly blessed to have such a special lady in my life. Every time she came to see me, she always asked how my family was doing..remembering my children’s names and when she got to meet them, she made it a point to ask how they were. Pam will forever be in my thoughts, especially when I throw on a cardigan, I will think of her. To your family I am so sorry for your loss. Pam was one in a million. Her kind heart and soul will live on. Heaven has received a very special lady indeed.

“ I am the oldest son of James and I have spent my life living in Missouri and I have not seen my brother and sisters as often as I would have like to have. I really wish that we could have seen each other more often. I was 6 years old when Pam was born. I enjoyed being with her when we were younger and I will miss Pam.. I wish I could have come out for her services but my health does not give me that ability. Love you Pam and love the rest of my family in Washington.

“ Even though I was the second oldest, my sister was six years older than me. I always thought she was cool, because she was older and she obviously knew things about the world that I did not. I remember her having a nice collection of 45 records with Elvis being one on her favorites. As we grew up and she married and moved away from Wenatchee, I was sad because I thought we wouldn't see each other much. I was extremely happy when she moved to Moses Lake. I knew we would at least see each other often. She and her husband started a family, (her children were her pride and joys) and I had my family. We then began to have family get together's often. We often took our family to the water slides in Moses Lake and we all had a

blast. But as so often happens, our families grew up and we didn't see each other much. But we always called each other on the phone. In fact, I had just talked to her the Saturday prior to her passing away in which we talked about an hour. I loved her like only a sister can love another sister and I will forever miss her. Heaven has received a special soul in my sister.

“ I have three children, two of whom have Cystic Fibrosis. My son had to spend time at Seattle Children's for his Cystic Fibrosis and I needed help watching my youngest daughter who was a baby. My Aunt Pam watched my little Avery so I could be with my son. I Love you Aunt Pam and I'll miss you.
