“ Despite only seeing each other about 10 times in our lives, because of our age difference, Ann was one of the most compassionate and caring people I have ever known. She was always supportive of my career, made our wedding more special by being part of it, and got to see Katie take her first steps when we visited. I am very grateful we had the chance to see each other, and Sam and her family, in May. We will miss her in our lives, but heaven's going to be a whole lot more fun. All our love to Sam, Dan, and their families. Dave and Suzanne
