Tribute Wall

“ *What a gracious lady Bev was, I met her while I was in 6th grade she was my sisters teacher, again when she was selling Mary Kay. She loved her poodles. And each child in her classroom was special to her. Later year I would run into her in a store, or while delivering flowers, always the kindness person, I hope her family can find peace with their memories and knowing others also thought the world of her.*

“ *Ms. Fissell was my favorite teacher, and my friend. She was my teacher in the 2nd grade at Longview and my 4th grade teacher at Knolls Vista. When I became a mom in high school, she was so loving and supportive. I spent hours at her home, while she taught me make tips and tricks (she laughed and cried with me when my daughter, Misty, used my entire brand new Mary Kay kit). Ms. Fissell was that teacher who forever touched my heart and my life. Rest in Peace sweet lady.*
