Tribute Wall

“ *It's one of those things that you think you will always have time...and then you don't.*

My heart will always be heavy because I didn't spend time with my brother. I would have liked to have just walked on the beach and talked to him.

I remember his laugh...it was huge!

I love you Butch. I will see you again and we will walk on the beach and talk.

my love

your sister

“ *My dearest brother,
How little time we had together
Our lives took different paths.
Even now I can see you smile
and hear your impish laughter.
How little time we had together.
I hope you are at peace.
You will always be in my heart
You were the sunshine and the wind
and I admired your free spirit.
The brother that called me " moon eyes".
will be with me always
Loving you Curtis Lee*
