“ Dear Sweet Donna...it has been decades since we last saw one another. You have always had a place in my heart but I did not show it at times. I cannot tell you how many times I drove by your home going to the clinic and to this day I am still having to go there so that means I always look at your home and say "Hi Donna...I hope you are doing well." Since I cannot go to church any more because of health issues I was not on the receiving end of knowing about your passing. I shall miss you in so many ways. Many years ago I suspected that you were the one who made cookies, brought them clear out to our farm and left them on the doorstep. Was that you? I don't know why I always thought it was you and you never hinted. We used to talk at church when we were in the same ward and then we were separated and I noticed that when I did see you that you were not friendly like you always had been. Oh how I wanted to go to your home and knock on your door and ask you if I had hurt you in any way. You always were friendly to me, big beautiful smile and I can still hear your voice..."Hi Sister Hirz". That stopped and you avoided me. Believe me dear Donna that I have always cared about you. When I read the post left on this site by your mail carrier it broke my heart to find out that you had hardly anything at all and not enough to eat, etc. Where was I? Why didn't I follow those promptings and stop and see you. Perhaps I was afraid you would reject me since for years you had been avoiding me. My dear beautiful woman...whoever hurt or ruined our friendship will have to answer for it one day. Where you are now you will learn the truth of all things and find out that I loved you. I don't know if you were my cookie friend, but for the rest of my life I am going to say you were. Your cookies were an act of love. I will not say goodbye as I will see you again one day. Remember the fun talks we used to have and the smiles and laughter we exchanged. I shall never forget you. I look forward to seeing you one day and I will hug you and tell you how very much I have cared about you for these last 48 years. You live in a beautiful place now, peace, no sorrows, but only love and more love comes to you. Always remember I love you,
Sister Deanna Hirz

“ *Everyone who knows Donna knows she was eccentric. I delivered her mail for the last seven years and for some reason she had an effect on me even as she was with few resources. On occasion when it was hot she would have her front door open and as she was one of my last deliveries of the day I would come upon her eating a meal of what I took to be cold can of vegetables in a worn tin pan. She would be a little embarrassed by the encounter but in the end she genuine and that touched me. I won't forget her.*
