Tribute Wall

“ To my brother Gary. I thank God for a brother such as you. You were kind, generous, and very funny. I, like Jean, will forever remember your rewriting of songs like Ring of Fire, El Paso, A Little Bitty Tear Let Me Down, and 16 Tons. I don't remember how many times you would get me laughing so hard my side would hurt. Whether we were milking, playing chess or cribbage, whenever we got together it was always easy to laugh. I miss you a lot Gary. I just pray and look forward to that day our Lord and Savior will let us see each other again. I love you Gary and miss you. “ Gary we will miss you. I wish I could have told you a last good bye and how much I loved you and how much you meant to me.

I will remember your kindness over the years. How you let me borrow your car so I could finish school. I will laugh when I think about how you changed the words to songs. You had so many wonderful ideas and dreams, I wish you could have seen them come true.

I wish I had known how sick you were. I wish I had taken more time to visit with you. I will learn a lesson here and move forward taking time for others. Even in your passing I will learn from you.##imported-begin##Jean Fitch##imported-end##
