“ Jason -- I am so, so sorry to hear about your dad. I was able to meet him at the clinic while my mother was getting treatment. She knew him from the plant. I couldn't believe he was still working at the time. He is an amazingly strong man.  
Please email me if there is anything I can do to help. I know you are probably getting that a lot right now, but cancer got my mom in six weeks ago and I would love to help if I can.  
Try to find comfort in the laughs and good times.
