“ Harley, I think of you often helping me make wooden boats, explaining all types of plants, and being a great rock collector. A young boy growing up I was very impressed. God bless

SM

Mr & Mrs Harley Brotherton were great, compassionate & giving people. I spent a lot of time at their beautiful home with their daughter, Selena. She was a great friend. I named my youngest daughter after Selena.

I've been trying to get in contact with Selena, but no luck. All I know is she lives in Alaska.

If anyone knows how I can contact Selena would you please email me at, gpglass37@gmail.com

*Thanks,
Shannon McLean-Glass*
