“ My dear Cousin Kenny you are going to be missed so so much. When I heard of your passing it crushed my heart. You were there for me when Rich died and words cant explain how much it meant to me. We would talk on the phone or send text messages back and forth, which is what I really needed during that difficult time. To all of the family I am saying prayers that you all may find some comfort during this difficult time. Kenny you are not here in the physical world, but you will forever be in our hearts. R.I.P. Kenny. I will miss you . Sending love to all of the family.
