“ Nancy and I send out sympathy to Lee and the family. I do recall actually being at your wedding as a child. Then working one summer there in my teens. Time passes so quickly. We were sorry to hear of Pat and then Marion so close together and now Frieda. We always remember her in church serving and being such a gracious person. May the Lord bless her and the family.

“ I want you to know that I am so sorry about your mother. I had received an e-mail from her letting me know she had not been to the Needlecrafters Club at the Senior center because she had been having health issues. Lorina and I shared the love of tatting and entered in the Grant County Fair several summers together, but did not really get to know her until she started coming to the Senior Center. She will be greatly missed and I pray that the Lord will comfort you through this time.
