“ *My sincerest sympathies to you all with the loss of Lyle. As a meter reader for Grant PUD, I had a chance to visit with him and most memorably about his military service and when he was working on the construction of I-90. So interesting, I only wish I had known him longer & had more time to spend listening & learning from him. He really seemed to enjoy the fact that I was so in love with his petrified wood collection! Rest in Peace.*

“ I visited with Lyle several times last week at summerwood before I left on vacation. I told Lyle not to go anywhere I will be back in a week. As usual, he didn't listen to me! I will miss my Saturday morning conversations with Lyle, I learned so much about WWII, the county, road grades, rural life in SD...etc. It was nice having Lyle as a neighbor for the past 10 yrs. I refuse to be sad for long, Lyle lived a very long interesting life, somebody I will not forget. I raise my glass to Lyle, Rest in Peace my friend. GF
