“ To the Mulamba and Hargrove Families,

I am deeply sorry for your loss. Becky truly was a kind soul. I met her working at K-Mart years ago, always smiling and laughing. Then as time passed we would meet again when she brought Adreyan to daycare. Still smiling and laughing Becky could brighten anyone's day. Soon after she and Brent would add little Simone to their lives, what a blessing. I hadn't talked to Becky in awhile, but I know she will live on through her children and the great memories that family and friends will share forever. God Bless You and Yours. In our thoughts and prayers.##imported-begin##Melyssa and Family##imported-end##

“ I remember when I first brought Kailee home from the hospital. You came into our lives with such exceptance of her. You held her for hours. You one of the few that watched her for us so my husband and I could have a break. You never saw her disabilities you always just saw her for who she really was. You loved her unconditionally. That meant a lot to us. You entered into our lives at a time of need. We love you for that. Your family was also so caring of us and our children and we want you to know we love your children the same as you loved ours. Maybe we can return to you what you gave us eight years ago.

Heavly Father is watching over your family and children, rest and be peaceful with the LORD.

Our prayers are with Haron, Millie, and Family through these tough times.

All our love to Adryan and Simone.##imported-begin##Derick, Jodi, and Family (Expecially Kailee)##imported-end##

“ I graduated from MLHS with Becky. She was always a kind person. She was never the type of person to be in a clique, because she was an all-around girl who liked and talked to everyone. I hadn't seen Becky in a few years, but I know she will be greatly missed. I'm sad to hear of her passing and will be praying for her family in this tragic time. Her kids can be proud that they had such a beautiful and loving mother. I'm sure she is looking down on them always.##imported-begin##adriana##imported-end##
