“ I just learned about Dr. Hylander’s passing recently and am very saddened to hear the news . Him and his wonderful wife Kathy helped me with my allergies back in 2003 and all the way up until I left for college! Even after I left for college they would still reach out to make sure I was doing well. He was such a great doctor and my condolences go out to his family and loved ones.

“ Dr Hylander was a young Captain in the USAF who was assigned to the David Grant Hospital at Travis AFB when our daughter was born there in 1980. He attended to her during her 5 week stay in the infants ICU as she was born 8 weeks premature. I remember his good humor remarks when she became irate as her nappy was changed. He smiled and said, 'oh my, you are gonna have a feisty one here'. He also said to measure her height when she turned two as that would be one half of her adult height. He was right on both counts. I remember him as a wonderful and caring peds doctor. He always brightened up the ward when he came in on his rounds. He was a most pleasant and congenial fellow.

“ Dr. Hylander has been part of both my family and my husbands. He cared for us and our loved ones through all walks of life, and was especially known for his good humor. I didn't really like going to the doctor, but I loved going to Dr. Hylander. He and Kathy were there to celebrate our wedding, and we still think back on how generous of a gift they gave. They are the most humble, selfless people, and we truly mourn with his family. May the goodness that Robert was, and the love of God, give them the peace that they need to get them through this time of remembrance and grief.

“ No words can describe the loss of the most caring, compassionate and friend to all of his patients. I worked for Dr Hylander. He treated his employees with respect and would Thank you for your help everyday. I learned so much about allergies and airway disease from Dr Hylander. He was always eager to teach his knowledge regarding his practice. I absolutely loved his humor. He would find something funny and have a way to share that would make a person laugh all day. I had the highest respect for Dr Hylander. I will most miss his friendship. Rest in Peace

“ When I heard this it broke my heart. Still trying to process. He was THE best! Not only an allergy specialist, but an outstanding person. He knew my family of four very well and he always asked about them. My heart goes out to Kathy. I was a patient of Dr. Hylander for 20 years. Really just at a loss. Who is going to know how to treat my allergies and asthma like Dr. Hylander did so skillfully.

“ I never met him but my husband is going to be very saddened by this news. He enjoyed his trips to get allergy shots where he felt important. Always being asked about life and even gleaning advice from time to time.

I'm commenting because I see no service is planned but I think if you plan one, many many will attend .

“ Kathy our deepest condolences. Dr. Hylander was our son's immunologist for 14 years. When our son was as diagnosed with with life threatening allergies we wanted him to have a very thorough doctor, the best of the best. That doctor was Dr. Hylander. Any where we traveled he could fill us in on what we need to know to prepare and lookout for (I could never figure out how he had global seasons and all associated allergens memorized). We missed him dearly when his practice closed. Most recently when he returned to practice we filled him on life in general as well as changes to our sons care. He was immediately concerned and again he provided the best care to our son and correctly diagnosed him after we have been told multiple times everything was normal. Dr. Hylander has always been a big blessing to our family. We will miss his smile, compassion and expertise!
