Tribute Wall

DH

“ I am quite saddened by your passing but I will always have you in my heart. I am proud of all my efforts on your behalf for the last couple of years. I have been your friend and advocate, your handyman and your driver, Your companion and your best friend. At least the pain and suffering is over; no more visits to the emergency room or hospital. Rest in Peace my little songbird. I will always relish your excellent singing talent and your sweet personality. You were my lady Ria.

Love you, baby,
D B
