Vlad I heard the tragic news while I was at work. I simply went home cleaned up packed a bag and drove from Seattle to hear. I feel you'd do the same for me. You were always a joy to have on my job sites when you were working for me it was great bumping into you last 4th of July and meeting your daughter and you for ice cream. I never got to meet your parents you spoke very highly of your father and mother. I know we will meet again you will always be apart of the team aka the wolf pack. I know you're smiling down on us. I promise to always quote lines from movies on our job sites like you always did and keep smiles on the guy's. Love always

I love you very much dad you have been in my heart my whole life. You have brought me the happiest memories and I miss you very much I wish I could see you I've missed you so much still to this day I cry but I know your in my heart and you'll be apart of me for the rest of my life and I can't wait to see you later one when I pass away! Again I love you very much and I wish I could see you again it's been four years since you passed I'll always have you in my heart I miss you VERY much but I wish you could be here with me mom and I have been strong for you and living the best lives we can and we're doing amazing but you not being here breaks our hearts. I'm in middle school now I wish you could be here I'm very proud of myself and I know you would be proud of me too. And yes I'm crying while typing this... But I try not to cry to much because I know that you'd be sad if I did to much and I know your proud! I love you very very very very VERY much your still apart of our hearts and always will be. Love your only daughter Adriana!
